

SUMMARY

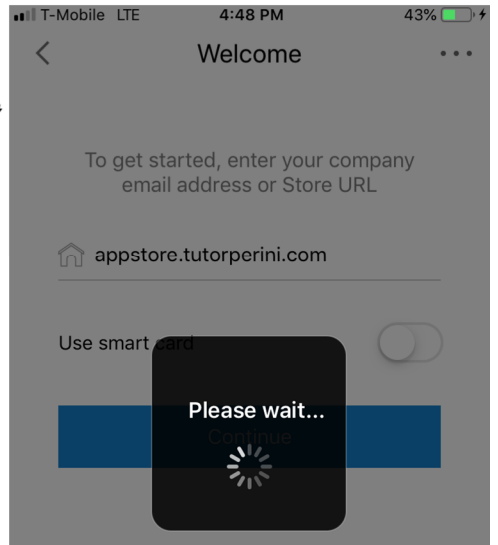

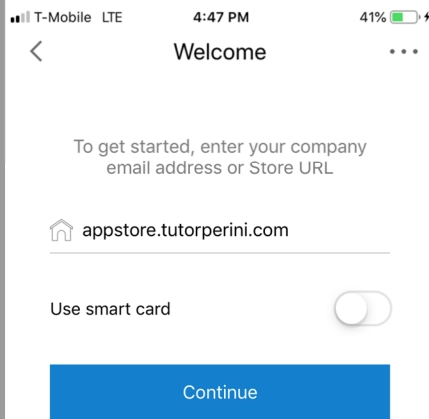

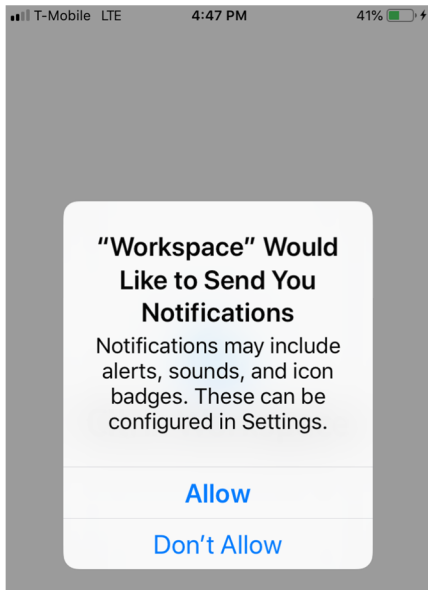

Citrix Workspace for iOS is an application used to connect to Citrix applications on TPC’s network.

PREREQUISITES

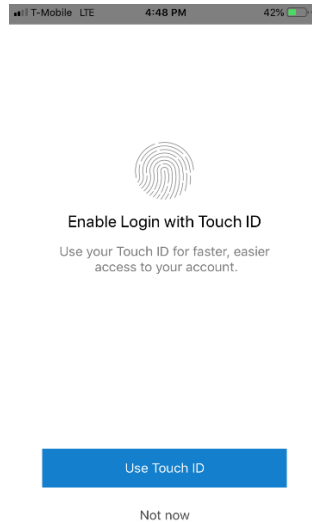

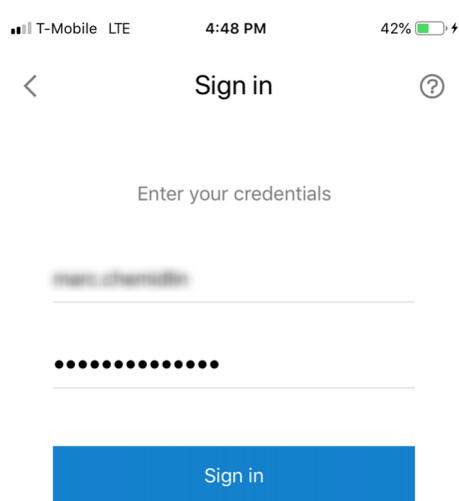

- TPC Active Directory account credentials
- Apple Mobile device (connected to the internet)
- Citrix Workspace for iOS (from Apple App Store)

PROCEDURE

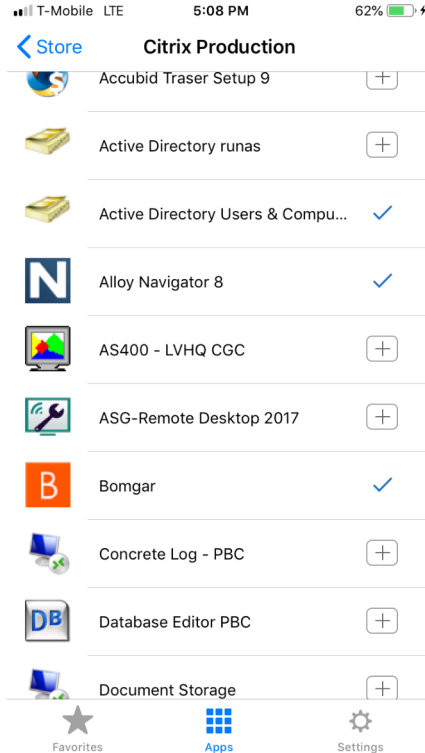

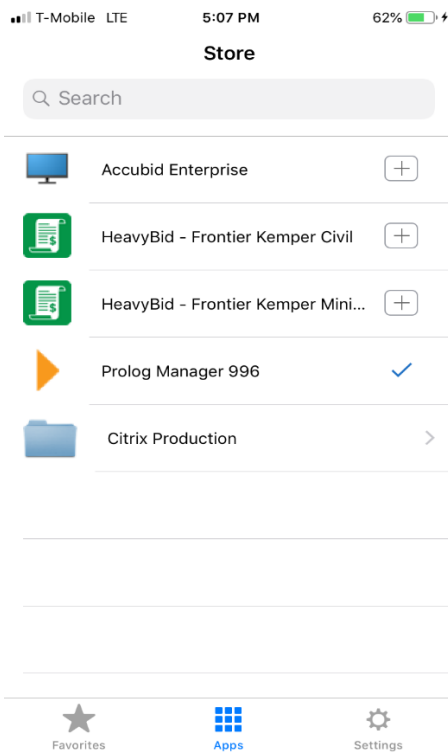

1. Open the Citrix Workspace app, choose “allow” notifications, enter the store URL **appstore.tutorperini.com** and wait for the configuration to complete.

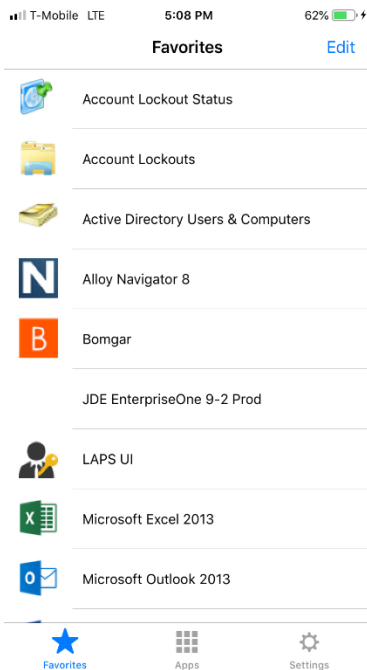

2. Enter your username and password and Sign In; choose whether or not to use Touch ID (personal preference).

3. Click on the plus sign next to each of the available Apps to add to your Citrix Favorites

4. Your screen can look like this when you have finished adding the applications you frequently use in Citrix
