

The JDE Carousel

Look for the Δ symbol along the border. You can move the Carousel to any side of the screen. Just *Click* on Carousel, *Hold down*, and *drag* to where you want it.

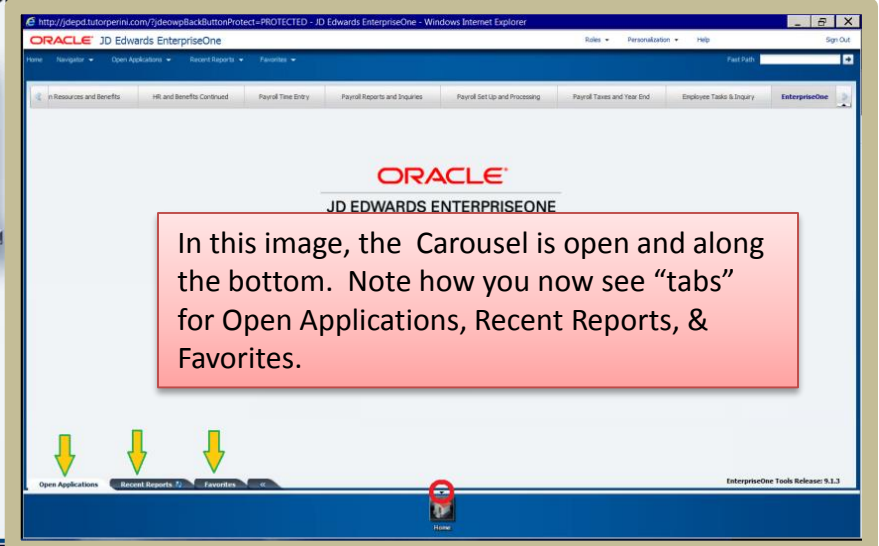

This screenshot shows the Oracle JD Edwards EnterpriseOne interface. On the left side, there is a vertical navigation area with a 'Carousel' containing sections for 'Open Applications', 'Recent Reports', and 'Favorites'. A red circle highlights a small triangle icon on the left edge of this carousel. The main content area on the right shows various application tabs like 'Resources and Benefits', 'HR and Benefits Continued', 'Payroll Time Entry', and 'Payroll Reports and Inquiries'. A large '9.1' watermark is visible in the background.

In this image the Carousel is along the left side of the screen. You don't have "tabs", but sections that open when you click the ">" ... currently, the Favorites section is expanded.

This screenshot shows the Oracle JD Edwards EnterpriseOne interface with the carousel collapsed at the top. A red circle highlights a small triangle icon on the top edge of the carousel. The main content area is visible, showing the Oracle logo and the text 'JD EDWARDS ENTERPRISEONE'. A red box contains text explaining the state of the carousel.

In this image, the Carousel is collapsed and positioned along the top of the screen.

This screenshot shows the Oracle JD Edwards EnterpriseOne interface with the carousel open at the bottom. A red circle highlights a small triangle icon on the bottom edge of the carousel. The main content area is visible, showing the Oracle logo and the text 'JD EDWARDS ENTERPRISEONE'. Three green arrows point to the 'Open Applications', 'Recent Reports', and 'Favorites' sections of the carousel. A red box contains text explaining the state of the carousel.

In this image, the Carousel is open and along the bottom. Note how you now see "tabs" for Open Applications, Recent Reports, & Favorites.
